THIS IS UNEVALUATED INFORMATION

25X1

This report is the result of a joint collection effort by the Air Force, the Navy, the Army, and CIA and is disseminated in accordance with the provisions of NSCID #7.

1. The Dozsa Infantry, Armor and Motor Vehicle Officer School, on the northwest edge of Tata, before 1 Oct 56, was known as the Rakosi Armor Officer School. See [] end of the report for the school's physical details.
2. [] T-34 medium tank, and the light, medium and heavy SP guns. [] In addition to armor training, [] a total of four to six hours on terrain study; about 10 hours a week on communications; about 28 hours, including 10 hours of practical work, on engineer training. Weapons instruction covered about 1½ months, [] armor tactics instruction with combined arms. Finally there came 12 hours of tank training, each student having an opportunity to operate a tank for about two hours.
3. CBR instruction included talks on the capabilities of various atomic weapons. [] the instructor mentioned only air delivery of atomic weapons. [] instructions on protection against radiation and how and where to report an atomic strike. [] instructors stressed that in modern warfare, armor and other ground troops must maintain much closer contact with the enemy than in the past, thus deterring the use of nuclear weapons that endanger friend and foe alike.
4. [] gas masks and impregnated paper boot covers and similar paper gloves. [] instructed in first aid for radioactive casualties, []
5. Level of instruction at the school was high and the students' ability was high as most were university graduates. []
